

# NUKI

## WALL PANELS

**Congratulations on your choice and thank you for purchasing our furniture.**

The NUKI wall panels are a perfect solution for every space. The natural birch plywood with a unique structure makes each element a beautiful ornament for any home or office, and combined with others, it creates one-of-a-kind decoration. NUKI means also functionality – the panels protect the walls from getting dirty, and the assembly is really simple.

**Enjoy your NUKI furniture!**

## ASSEMBLY INSTRUCTIONS FOR THE WALL PANELS

Each panel has a set of assembly rings made from foam double-sided tape. They keep the panel on the wall while the montage glue dries.

Prepare: montage glue (not included in the set).

### Assembly STEP BY STEP:

- 1** Clean the wall.
- 2** Take the protective layer off of the assembly rings.
- 3** Put the flexible montage glue in several spots (on the reverse of the panel, around the assembly rings).
- 4** Place the panel in the selected spot on the wall and press. After a few seconds, the panel should adhere to the wall on its own.
